

I am outraged that Sinclair has decided to use their ownership of public airwaves as a political tool. How can our public airwaves be used in such a clearly devious manner. To mandate that all stations must pre-empt prime time programming to serve their political purpose is a clear violation of Federal Election Law. There can be no other explanation for their decision other than to benefit their political party of choice. The evidence of this is clear and should not be ignored.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy.

I will find out what I can do to see to it that Sinclair will not get away with this violation of law. The best interest of the public should be their interest, not what they see as "their" best interest.

Thank You,
Geoff M. Nino
